- Animal Presentations & Photos

COMPANY PROFILE

The award-winning Wildlife Habitat is Australia's leading environmental wildlife experience, providing visitors with a chance to observe up close a huge range of flora and fauna.

Situated at Port Douglas, Tropical North Queensland, the park is a wildlife immersion exhibit – an open and interactive environment for guests and animals to mingle in a spacious setting.

4 different environments are depicted:

The Wetlands

An array of wading birds can be viewed foraging for food in waterways alongside a host of marsupials, black-necked storks, fruit bats, and a multitude of bird species.

The Rainforest

A lush, tranquil environment where native species such as Boyd's Forest Dragon, Eclectus Parrots and the Southern Cassowary can be viewed. Boardwalks meander along the forest floor to the rainforest canopy.

The Savannah

This open-air exhibit portrays both inland and coastal plains. You can hand-feed kangaroos and wallabies, and observe the Lumholtz Tree Kangaroo, emus and crocodiles.

The Woodlands

This habitat offers the opportunity to wander amongst the beautiful richly coloured smaller birds and finches of the open woodland.

Free guided tours operate throughout the day and the Presentation Hut area allows you to learn about pythons, koalas and crocodiles with the opportunity for a photo holding these animals (optional extra).

Breakfast with the Birds

Visit the Wetlands environment and experience the symphony of sounds and colours of our native birdlife. Our feathered friends fly freely amongst the trees as you enjoy one of North Queensland's best buffet breakfasts. Join our daily Breakfast Bird Interaction experience at 900am. Breakfast served daily 8 – 10.30am.

Lunch with the Lorikeets

Treat yourself to a mouth-watering buffet lunch in the company of colourful lorikeets, curlews, parrots, herons and a host of other birdlife. Served daily from 12 – 2pm.

YOUR Wildlife Habitat

Get a glimpse into the life of a wildlife keeper with a private group tour through the park. Visit our Wildlife Care Centre, and see where our wildlife keepers care for sick, injured or orphaned animals, and learn about our breeding programs.

WildNIGHT Habitat

Observe the behaviors and feeding of our native nocturnal animals on this tour by torchlight.

With seating for over 200 guests, The Wildlife Habitat is a unique venue for conference, incentive, wedding and group events.

**Open 8am – 5pm Daily (last entry 4pm)
Except Christmas Day
(25th December)**
